The abstract should be supplied electronically as a MS Word (preferable), Open Office or Latex file (Mac Users: save the file in the PC-readable format). The abstract should fit within the rectangle 12.4×19.0 cm, which corresponds to a B5 page (17.6×25.0 cm) with the top/bottom and left/right margins 3.0 and 2.6 cm wide, respectively.

Use the Times font, 10 pts large. The text should be single spaced. Indent the first line of each paragraph by 1 cm. The title of the abstract should be in bold capital letters, the addresses in italics. Underline the name of the presenting author. Separate the addresses from the body of the text by two blank lines.

If your text contains equations, provide also the PDF file of the abstract.

Use the Elsevier style for citations; the reference numbers should appear in square brackets [1]. Do not use Office tools for automatic reference numbering.

Using MS Office graphic tools may often lead to unpredictable results, therefore it is safer to supply figures (black/white lineart or grayscale halftones) in Postscript, Encapsulated Postscript, PNG or TIFF format. The total size of the abstract (including graphic files) should not exceed 5 MB.

Send the files to
